Regional Training on Protected Agriculture Technology in Asian Countries

Country Report in Cambodia

Presented by: Ms. Korn Sreyleak

Officer of Department of Agricultural Engineering, GDA, MAFF

H/P: +85570648697
I. Country Review

II. Contribution of Agriculture sub sectors

III. Protected Agriculture Technology in Cambodia

IV. Research Interest
I. Country Review

❖ Location: SEA and bordered with Vietnam, Laos and Thailand
  - Land border: 2,438Km
  - Coastline: 435Km
❖ Total area: 181,035km²
❖ Total population in 2017:
  - 16.01 millions (51 % are women)
❖ Population by Urban - Rural residence
  ✓ Urban= 20%
  ✓ Rural= 80 %
❖ Population growth: 1.64% per annum
I. Country Review – cont’d

- **Agrarian country**: 80% of population live in rural areas:
  - Central lowland along Mekong River: 49%
  - Around Tonle Sap Lake: 33%
  - Around coastal zone: 7%
  - High land or plateau zone: 11%

- **Climate: Tropical climate/Monsoon**
  - Rainy season: May - October
  - Dry season: November - April
  - Average annual monsoon rainfall:
    - Minimum: 1,441 mm
    - Maximum: 1,968 mm
  - Average annual temperature:
    - Minimum: 23.3 °C
    - Maximum: 34.9 °C
  - 25 provinces, Phnom Penh municipality, and 26 cities/krons.
I. Country Review – cont’d

- Total cultivated area of 4,505,267 ha in 2013
  - Rice: crops: **68%**
  - Subsidiary and industrial: **21%**
  - Permanent crop: **4%**
  - Rubber plantation: **7%**

- Employment in agriculture: Approximately **70%** of the total population.

II. Contribution of Agriculture sub sector from 2012 to 2016

Source: MAFF, 2016
2.1 Composition of sub-sector in Agriculture, 2015

- Industrial and subsidiary crops are rubber, maize, cassava, all kinds of beans, sesame, sugar cane, tobacco, vegetables, etc.
- Composition of sub-sector in agriculture: crops 60%; fisheries 22%; livestock & poultry 11%; and forestry 7%.

**Source:** MAFF, 2015
2.2 Status of machinery usage in Cambodia

- In Cambodia, rice is the main crop and farm mechanization is also mainly for rice. Agricultural machines are also used for other crops such as corn, cassava, bean, rubber, sugar cane and fruit tree for land preparation, transportation and planting.
- For rice, farm operations which are significantly mechanized are land preparation, spraying, weeding, threshing and milling. Other farm operations such as transplanting, fertilizing, etc. are still done manually because they are complicated to be mechanized.
# 2.3 Mechanization rate of paddy rice work

2.4 Contribution of Agriculture Sector in GDP From 2011 to 2015

The agriculture sector contribute to the GDP is about 28.6% in 2015, while industry sector is about 29.7% and services sector is about 41.7%. While in 2011, agriculture sector contribute to about 34.6%, industry sector is about 22.1% and services sector is about 37.5%.

III. Protected Agriculture Technology in Cambodia

Crop protection is the science and practice of managing plant, diseases, weeds and other pests (both vertebrate and invertebrate) that damage agricultural crops and forestry. Agricultural crops include field crops, vegetable crops (potatoes, cabbages, etc.) and fruits. The crops in field are exposed to many factor. The crop plants may be damaged by insects, birds, rodents, bacteria, etc.
3.1 Other ways crops protection Cambodian used
3.2 Other ways crops protection Cambodian used-Cont’d
3.3 Type of Pesticide Sprayers Cambodian used
3.4 Main Issues and Challenges for Using Chemical pesticides

**Main Issues**
- Over using of Chemical pesticide
- Most farmers lack knowledge for mixing
- Increasing of diseases and insects
- Illegal import of chemical pesticides
- Crop production is not good quality
- Using Chemical pesticide is not on time

**Challenges**
- Environmental effects
- Impact on human and animal health
- Impact on agro-ecosystem etc.
IV. Research Interest

1. Study on designing the small agricultural equipment such as Sprayers, motorize weeder and other equipments.
2. Study on designing and equipment for Greenhouse
3. Study on new innovations for crops protection from other countries
THANK YOU for your ATTENTION!
