AGRICULTURAL HIGHER EDUCATION IN RUSSIA

- **26 Universities**
- **32 Academies**
- **1 Institute**
- **25 institutions of additional professional education**

- **429.2 ths of students**
- **9.5 ths postgraduates and doctoral students**
- **25.6 ths secondary professional education**

NEED ASSESSMENT, CHALLENGES AND CONSTRAINTS

Low prestige of agricultural professions among young people

Wages in agriculture is 50% of the average for the economy

Rural areas poorly equipped in the social sphere

In agricultural universities 25-30% less money spent from the federal budget than in others

Low profitability of farmers does not allow them to attract funds for research

The average results of state tests of applicants of agricultural universities is lower than in other universities

SUGGESTIONS FOR REGIONAL COOPERATION

I

Join external programs of leading Universities in the region

II

Student exchange

III

Joint research programs

IV

Joint regional forums, lectures and seminars

V

Exhibiting activities
